Monthly Meeting Wednesday, November 9th

At 7:00 pm in the Lakewood Park Building

This month's topic: Energy Saving Assistance Program

Lakewood Holiday Parade is December 3rd! - Bring an Unwrapped Toy!

President's Column

-Judy Fernandez

Hello Neighbors!
Our October meeting was the "City Council Candidates forum" at Lakewood School. All nine candidates were in attendance. We had about 50 Lakewood neighbors and about a dozen other Sunnyvale residences. For all the work that the volunteers did to put this event together, the turnout was very low and disappointing.

The candidates answered questions from the audience. One question regarded saving our neighborhood pool. All of the candidates said, "If I were elected I would take reopen the subject to reconsider the city's position on this topic". *Remember, the more people in our neighborhood vote, the more the city will pay attention to us!*

Please get out and vote this November.

Our Annual picnic on Oct 15th was also poorly attended. LVNA supplied all the burgers, dogs and drinks while the attending neighbors each brought a side dish to share. We had 4 raffle prizes of $25.00 gift certificates from Subway, Coco's, Mexicali Grill and St. John's Grill. There was a piñata for the kids and carnival games supplied by Imelba and Phili. Those who did show up had a great time!

The LVNA board and I are trying to figure out why our recent events have had such a low turnout. ***Thank you*** to the walkers who are getting the newsletter's out before the general meeting each month.

If you are having trouble with that please let us know so that we can help you out.

Energy Savings Assistance Program

By Phyllis Fowler *(continued from page 1)*

I recently had the audit done on our house. Paul, who is with "Quality Conservation Services" looked for places where air and heat could be escaping our house. A cracked window, a doggie door, even a light panel are all places where energy can escape, wasting both energy and money.

Paul told me, "In the winter time, if you put your hand up next to a light switch, sometimes you can feel the cold air actually coming in." In 2008 alone, 62,000 customers benefited from this program. The program will even replace your old light bulbs with energy saving SFL bulbs. A simple thing like replacing old light bulbs with CFLs could cut your energy bill 75 cents a month per bulb! Weather stripping your doors and window is also a good idea. This will prevent cool air escaping in the summertime and cold air coming in during the winter.

Paul replaced several of my light bulbs with the CLFs and I was surprised at how much brighter my kitchen was! I had an old halogen torche light in the TV room and Paul replace it with a three way torche that uses 3 CFLs. I didn't realize how much brighter the TV room would be at night. If I had, I would have had him replace the one in my den and the one in my sunroom!

He also replaced one of the lights fixtures in our backyard. It was one on the big halogen light bulbs (rather ugly) that was installed when we built our sunroom. Now we have a black carriage style light fixture that will come on at night and turn off during the day.

I also got a lot of information about how to save energy (and money!) around my house. Turn off lights you are not using. (If I can just get Fred to do that!)

When you are shopping for appliances, look for the "Energy Star" sticker. You will find them on almost every kind of appliances. If you do, you will save money on electricity and many washing machines and dishwashers use less water as well. Look at the "Energy Savings" stickers on the machines and they will tell you how much you can save. As you compare the features and prices, also compare the energy savings! The difference between what you can save in energy cost and water use may make a more expensive machine cheaper in the long run.

Use cold water to wash your clothes whenever possible. I now use a laundry detergent that is made for cold water washing and my clothes are coming out clean. I now only use hot or warm water when I am washing whites only.

Use the energy-saver cycle on your dishwasher or let your dishes air dry by turning off the appliance before the dry cycle begins. I did it and by the time my dishes were cool, they were dry.

Did you know you should change the filter in your heater and air conditioner monthly? If you keep your air conditioner thermostat no lower than 78 degrees in the summertime and your heater no higher than 68 decrees in the wing.

Come to the Lakewood Park building on November 9th at 7:00pm and learn more tips and about the programs at the LVNA meeting. You can also schedule and energy audit by calling Al Castillo at 650-994-4254.
See you at the meeting!◆

(Editor– Have you ever wondered "Will this toy I am donating make a difference? Well, I can answer you, ***Yes it does!*** *My parents struggled everyday to put food on the table and give my brothers and me the best they could. When I was eight, there wasn't enough money to buy toys for Christmas. But the "Toys for Tots" gave my Mom toys for us. My gift was a Madge doll (Barbie's best friend) and a Ken doll. My mother stayed up that night and made clothes for my dolls from scraps of fabric. I especially remember a dress she made from a lace sleeve and a bit of velvet ribbon. I loved those dolls and when I was fifteen, I gave them to a little girl whose Mom couldn't afford to buy her dolls. By that time I had a Barbie, Skipper (Barbie's little sister) and an entire wardrobe. But even after all that time, I still loved my Madge doll and the clothes my Mother made for me the best.)*◆

Volunteer by Donating to the Lakewood Village Neighbors Association (LVNA)

By a Lakewood Village Resident
Hooray, hooray, hooray! Finally we all have a way to volunteer without taking up our time.

Last month, I went to the meeting and saw that our LVNA was short on cash. That got me to thinking; there are approximately 1400 homes in Lakewood Village. If we all were to donate just $1.00 each our LVNA would not have a problem affording many of the things we would like to do, such as paying a team to clean graffiti, take care of litter, helping senior citizens, etc.

When you think about it, we give tips to a lot of service people; why not give a tip to all the volunteers that give their time and energy to serve us.

As you can see this month some of us are fortunate enough to donate more than a dollar, so if one person gives five dollars they pay for four families that couldn't. If someone gives twenty that compensates for nineteen more.

I have lived in Lakewood Village since 1969 and have never volunteered my time or energy, so it really makes me feel great to help financially. Here's looking forward to a lot of others to join me in making a stronger LAKEWOOD VILLAGE NEIGHBORHOOD ASSOCIATION.

Note from the LVNA Board: Donation information (amount and name only) will NOT be published in ***The Villager*** unless approval from the donator has been received.

Bowl with the Sharks!

The San Jose Sharks are a team of tough, big, scrappy and talented hockey players…but they are also deeply committed to their community. No wonder then, that their entire organization and Foundation are too.

Last month, the Sharks Foundation formed a partnership with the Valley Medical Center Foundation. The pediatric clinic at Valley Health Center Tully in San Jose serves more than 6,000 children each month! The clinic however was drab (i.e. boring!) and was short on décor and inspiration. Enter the **San Jose Sharks,** who are investing up to $100,000 to "re-imagine" the Clinic.

The clinic will have Sharks images of players, team colors throughout and of course "Sharkie", the team mascot everywhere. More than just looking good, the clinic will be full of healthy tips for kids and parents: Take a BITE out of your veggies, drink water not soda, get your exercise and immunizations…all positive messages to match the positive look and feel.

To help raise fund for the project, the Sharks Foundation is holding the inaugural "Sharks & Strikes" charity bowling tournament on **November 14th**, and you are invited!

Join the Sharks foundation, Sharks players, coaches and broadcasters for a night of bowling and raise money for a great cause. Prices start at only $100 for youth and $150 for adults with proceeds benefiting the "Sharks Pediatric Clinic at Valley Health Center Tully".
The event will take place at 300 San Jose, neat the Oakridge Mall. Thicket are limited, so act fast!

For more information or to register, visit **www.SharksFoundation.org** .

If you need a shorter route or just someone to cover your route when you go on vacation. Please let us know beforehand.
My biggest fear is that people are so busy with their lives that they just don't have time to commit to our neighborhood.

We have a wonderful neighborhood and wonderful people who live here. Please remember the children who live here need all the developmental assets of our neighborhood. Our people are the assets, who instill the positive values and provide the positive relationships and experiences. These assets help our young people grow and become the next generation who will continue this wonderful neighborhood association. ◆

We worry about what a child will become tomorrow, yet we forget that he is someone today.

You can learn many things from children. How much patience you have, for instance.

~Franklin P. Jones

In a dark moment I ask, "How can anyone bring a child into this world?" And the answer rings clear, "Because there is no other world, and because the child has no other way into it."

~Robert Brault

I brought children into this dark world because it needed the light that only a child can bring.
