Traffic Calming for Lakewood Village

. Hey Neighbors, my name is Pat Muniz! As most of you know, they are using our neighborhood for the Indy 500 tryouts!! Just kidding, but we all know the excessive speeds we see on our residential streets every day puts us, our children, and pets at risk. The board and the neighbors are doing a great job of reporting speeding cars, which works for specific drivers that we can identify. However, if we want a permanent solution, we need to get some speed humps or some other traffic calming devices installed to slow down the vehicles all the time. The LVNA will be forming a Street Calming Committee to collect signatures for the petition and determined where in the Village we need speed control. The city has a specific process in place that we need to fulfill to complete this process. Please volunteer and come to the next LVNA meeting so the committee can begin the necessary steps to make our neighborhood a safer place to live. We will have a guest speaker from the City of Sunnyvale Department of Public Works Transportation and Traffic Division present to educate LVNA on the process of implementing traffic calming measures such as installing speed humps.

Single Story Neighborhood Rezoning

By Zedory

Several Sunnyvale neighborhoods are designating themselves as single story only (most are Eichler Neighborhoods. Lakewood Village homes are modeled after Eichler Designs). They are doing so to protect their privacy and also to maintain neighborhood character. (Some of these neighborhoods have also adopted specific design guidelines for remodels/additions which can be found here:

http://docplayer.net/13251099-Eichler-design-guidelines-city-of-sunnyvale.html

The process consists of:

· complete an application and have a reasonable boundary drawn around the district.
· Pay $147 per lot in the boundary/district for the review
· 55% of the property owners within the boundary must agree to sign petition
· 20 lots minimum are required per application
· Submit to hearing process
· Upon approval, an"S" is added to the zoning within the designated district/boundaries

Sunnyvale City Manager's Blog

By Zedory

The City of Sunnyvale is currently undergoing a great deal of change and growth. There are many projects underway including a joint project between the Sunnyvale Public Library and Sunnyvale School District to build a branch library at Lakewood Park, which will include demolishing the Lakewood Park Tennis Courts in order to create parking for the Library. There is also the renovation of Sunnyvale's Downtown area, once known as the "Town Center", now called the "City Line". There is so much planned for our city, it can be hard to keep up to date. One way to keep track of what is going on is to subscribe to the bi-monthly "City Managers Blog." You can sign up to recieve e-mail updates from the City Manager Deanna Santana on the web at:
